

THE Enquirer-Southerner.

FRIDAY, JULY 10, 1874.

Corn sells in Greenville at 90 cents per bushel.

The crops of Pitt have been injured by the drought.

Jo Davis is making a powerful canvass in the 4th District.

An average wheat crop was made in Lincoln.

The town of Milton is out of debt and has money in the treasury.

An independent daily paper to be called the Evening Express is to be started in Newbern.

The corner stone of the new government building in Raleigh was laid on the Fourth with the interesting ceremonies of the Masonic order.

The "glorious Fourth" was only celebrated by "cullud" brethren in Goldsboro, and the Messenger says: "On the whole, it was a dull anniversary."

A heavy rain and hail storm passed over the section of the State on the south side on Friday last, doing much damage to the crops, fences, &c.

Reidville Record says that almost the entire white Republican vote of Stokes county will be cast for Gen. A. M. Soles.

Messrs. Schenck and Hoke, of the Charlotte District, are the only candidates for Judge in the State, who have taken the stump.

The Washington Echo says: "We learn that the steam saw mill of Mr. W. B. Wahab, at Germantown, Hyde county, was consumed by fire a few days since. Total loss. The cause of the fire we did not learn."

The Fair of the Carolinas has been reorganized at Charlotte. A. B. Springs, Esq., of Yorkville, was elected President. The next exhibition will be held the second week in October.

Philadelphia commenced work on the Centennial building on the Fourth of July. That city is determined to carry the contemplated enterprise of 1876 through, with or without the aid of Congress.

The importation of negro rulers in the State has already commenced. Says the Greenville Register: "R. L. Tyson, a Radical loyalist, has employed the major part of the imported negroes, and contemplates getting railroad ties for the West Indies. Too thin, try again!"

The Cleveland Banner is responsible for the following: "There is an old lady in this county, by the name of Sanders who is now 101 years old; she walks two miles to church and can knit and sew as well as some of minor age. Who can surpass it?"

Weldon News: "We are glad to notice the engagement of the farmers of eastern Carolina. The crops are in fine condition and are growing luxuriantly. Between Plymouth and Jameville the crops are well cultivated—cotton is small. There are numbers of cotton blooms in the fields of Washington and Martin."

The Charlotte Observer says: "We went down to the ice machine last night while it was at work, and got induced into the mystery again. It was working beautifully at that time, and when we left at 12 o'clock, the freezing process was going on rapidly. This morning another installment of ice will be taken from the refrigerating boxes."

The Newbernian says: From Capt. J. S. Lane, of Stoneville, we learn that the crops in Pamlico county are in far better condition at this time than they were last season, and that the prospects are exceedingly favorable for a splendid yield in all products under cultivation; that while about the same number of acres in that section has been planted this year in cotton, the production of corn will be eight times greater than last year. This is truly encouraging to us all.

The Newbern Times says: There has been raging for seven days an extensive fire in the woods and in dry fields in the vicinity of North Lake, Hyde county. The conflagration had the effect of driving from their hiding places large droves of deer, and the people in that vicinity are luxuriating on venison. The crops in Hyde are good, and its usual prolific corn crop is better than it has been for years.

A letter to a gentleman in Danville, dated at Liverpool, England, May 24th, says a large party of Englishmen in search of homes and investments, will sail for the United States early in August. They start from Norfolk on a tour of inspection through Virginia, the Carolinas and Georgia. Mr. Joseph Arch, President of the Mechanics and Laborers' Union of Warwickshire, England, will accompany the party to America this summer, with a view of locating a large number of English families.

"The Illinois 'States Zeitung' says: 'Chicago had once the bulk of the Republican party by its German vote. How thoroughly that party has thrown away the confidence of the Germans by its degeneration, its temperance ideas, and its paper money swindle, was illustrated at last Saturday's primary elections. With the exception of a very few German officials, not a single German participated in them. Indeed in those wards where the Germans predominated largely, no elections could be held because there were no Republican voters.'"

Condition of Affairs in Spain Still the Same.

MADRID, July 6.—Gen. Saballa has taken the command and held a review of the army of the North. He has informed his officers that he comes to fight the insurgent and intends to sink all political sympathies and opinions in struggle. Gens. Echague and Martinez Compa have resigned. The Pope has telegraphed in response to the congratulations forwarded to Rome on the anniversary of his accession.

LOCAL MATTERS.

RALLY! EDGECOMBE DEMOCRACY!!

It has been thought expedient, for various purposes, to call a Convention of Democrats of Edgecombe to meet in the town of Tarboro' on

SATURDAY, JULY 11th, 1874.

It is earnestly hoped that there will be a full turnout of the people of the county on that occasion, and that there may be a free and open discussion of the important political issues of the day, as well as the course to be pursued by our party in Edgecombe. Come, fellow citizens, the occasion demands it.

JOHN S. DANCY, Chairman Dem. Ex. Committee.

July.

Here, 'midst the boldest triumphs of her worth, Nature herself invites the rapturists forth; Dares the keen sickle from its twelve-month's rest, And gives that altar which, in every breast, From infancy to age alike appears, When the first sheaf its plump top uprears.

BLOOMFIELD.

Be Sure.—To come to town Saturday.

Good.—Edgecombe cotton crop is promising.

Soda.—See advertisement of Dr. Staton's Soda.

Great bargains in Straw Hats, at A. Whitlock's.

Come.—To the Democratic Convention Saturday.

Saturday.—Is the day for the Democratic Convention.

The Comet.—Is exciting but little interest in our community.

A large lot of new styles of Calicoes just received at Gatlin's.

TOMATOES.—Capt. Jno. S. Dancy has ripe tomatoes.

Lost.—A pair of Gold Frame Spectacles. See advertisement.

COMMENCED.—The Reds have posted their schedule for a voyage around the county. Heaven help us!

CALL.—And see us at our new office; always glad to see our friends. See sign of Printing Office.

THIS PAPER.—Claims to be one of the best advertising mediums in Eastern Carolina.

The water in Tar River is very scarce we hear it was not so low during last summer.

CLERK.—Mr. N. B. Bellamy was nominated for Superior Court Clerk on the Reform ticket.

Pic-Nic.—The younger set of our young folks had a pleasant picnic at Waller's Spring last Saturday.

For new shapes in Hats and Bonnets, call and see them at Mrs. Feldenhimer's.

CLAIM.—It has been suggested that those who had their windows broken by the firing on the 4th, ought to put their claim before the Geneva Arbitration.

Best Crop.—Capt. Jas. R. Thigpen is said to have the best cotton crop on his side of the river between Tarboro' and Washington.

IMPROVEMENT.—The Methodist congregation has made a decided improvement in its church building by taken out the window formerly in rear of the pulpit.

Piques, Grenadines, Organdies, Poplins and Lawns for sale VERY LOW at Gatlin's.

SLOW.—The Reformed Ticket seems to be doing but little as yet. We suppose Mr. McCabe has ordered them to go home and behave themselves.

B. and L.—Next Wednesday is the time for the regular monthly meeting of the Tarboro' Building and Loan Association. Pay promptly and save fines.

DRESS-MAKING.—We ask special attention to Mrs. McCabe's card. She is well known in the community and needs no commendation from us.

Clothing made to order of all qualities to fit, at A. Whitlock's.

We Hope.—No merchant of our town will sign the bond of a Civil Rights for the sake of the small trade he may bring him. It is reported that an effort is making in that direction.

SAD.—Two or three of our citizens met together last Saturday and read the American Declaration of Independence. They expressed themselves as rather not liking the concern.

BASE BALL.—The "Stonewalls" and "Tar Heels" have been playing match games of base ball with alternate success. The latter won a bat on the game Friday evening, score 18 to 9.

THE ALBEMARLE TIMES.—Formerly the Enfield Times has made its first visit in its new name to our office. It is in good hands and will be a great auxiliary to our cause in the first district.

For new shades of Silks and Silk Poplins, go and see Mrs. Feldenhimer.

RIGHT.—We agree with the Southern Home, if a twin brother of ours was running on the Civil Rights ticket we would vote against him and refuse to sign his bond.

QUERY.—We have been asked, "whether a child's spending 10 cents for candy was an investment for internal improvement." Will not some one answer this problem of political economy?

Just received a new supply of non-fading Flannel Suits in all styles, at A. Whitlock's.

New Grocery.—Mr. Lafayette Moore asks the attention of the public to the advertisement of his new business, located on Main Street, next door to Mr. R. A. Sizer's.

BLACKBERRIES.—Only a thousand bushes, more or less, brought to market up to this present. We presume the town people have a supply for pies, preserves, wine or anything else in which this fruit is used.

WATER-MELON.—The man who brings us the first water-melon shall have the pleasure of having the public bountifully informed of the fact. Our taste may be defective, but somehow we enjoy a good melon equally as much as we do a cotton bloom.

DEAR SIR.—If you are in arrears we hope we will be able to get along without the small sum you owe us, but we are old fogey enough to think you are under some moral obligation to pay your just debts. What do you think of it?

New styles of Percals and Prints, you can only find at Mrs. Feldenhimer's.

ARE YOU A DEMOCRAT?—If so come to the Convention Saturday and give your county the benefit of your views on the political status of the country. Be sure to come, whatever be your opinions as to the best course.

FARMER COOKING STOVE.—Mr. Hynes, Agent for Culver Brothers, has a cargo of these stoves now ready to be sold through the country. The stove is manufactured by Culver Brothers on scientific principles and apparently of the very best material and is sold from wagons alone.

COURT.—Our Summer Term of Superior Court commences on Monday, the 20th inst. This court is only for the trial of civil issues already made up at a previous term and will, we presume, be in session but a few days. Judge Moore will preside.

EXCURSION.—The Richmond and Danville R. R., have billed an excursion from Charlotte and other points on the route to Beaufort, to take place on the 14th inst. A similar excursion last summer was a grand success and we presume the remarkably low rates charged will insure for this a full patronage.

SARATOGA ROWING ASSOCIATION.—We have been invited to a seat on the Grand Stand, with all the ladies we may choose to take, to witness the rowing of the Inter-collegiate club on the 15th and 16th inst. Williams, Trinity, Yale, Wesleyan, Princeton, Cornell, Columbia, Harvard, Dartmouth and Brown Colleges are all represented. We fear previous engagements will prevent us from attending.

IMPRUDENT.—A cow, hungry and hence imprudent, got into a cart on the street Saturday to purloin a bundle of fodder, and the mule not liking the looks of his passenger started off much to the discomfort of madame bovine and the amusement of the genus homo idling on the street.—The cow was but little hurt and the people had a good laugh.

A large assortment of Linens, Alpaca and other light weight clothing for the hot season, at A. Whitlock's.

ADAMS' HOTEL.—We have heard so much complaint of our hotel, during the past four or five years, that it is with real pleasure that we listen to the good things that are now said of it under Mr. Adams' administration. A good hotel adds greatly to any community, and we therefore congratulate ourselves, as well as the traveling public, that we have at last established one in our midst.

For the Enquirer-Southerner.

ENIGMA.—My first is in good but not in bad, My second is in tears but not in sad, My third is in over but not in out, My fourth is in perch but not in trout, My fifth is in edge but not in middle, My sixth is in rhyme but not in riddle, My seventh is in bell but not in ring, My eighth is in song but not in sing, My ninth is in young but not in old, My tenth is in dead but not in cold, My whole is the name of an afflicted, though noble and generous youth.

CULVER BROTHERS.—We ask the attention of our readers to the advertisement of this firm to be found under the head of new advertisements. Mr. Hynes their agent, is now in our county and will soon present to our people the celebrated "Farmer Cooking Stove" which can be seen, has met the hearty approval of so many both within and without the bounds of our State. We hope Mr. Hynes will receive every consideration from our people during his stay among them.

For the Enquirer-Southerner.

TARBORO', N. C., July 11, 1874.

MR. EDITOR.—Dear Sir:—Is there a white man in the State that has publicly announced himself in favor of the Civil Rights Bill on the stump, except McCabe of Edgecombe? If so please give us his name in the next issue of your paper.

MR. J.

We are reliably informed that Mr. Jos. Cobb has declared for it on various occasions, but more especially at a night meeting at the Poor House. [Ed. Enq.-South.]

HAIL STORM.—A gentleman from the neighborhood of Bethel, Pitt county, has given us graphic accounts of a most terrible hail storm that passed over his section last Saturday. He has not heard how far the storm extended, but its width seems to have been six or eight miles. The average size of the hail stones was that of a walnut, a few however being nearly a pound in weight. In some places they broke through the roofs and would pelt hogs so that they could scarcely walk while the storm lasted. It is thought the damage to the crops has been very great, cutting them short at least a half.

If you want to see something entirely new in Dress Goods, they have just arrived at Mrs. Feldenhimer's.

THE STOCKHOLDERS.—Of the Tar River Navigation Company meets in Tarboro' on Tuesday, the 28th inst., for permanent organization. See advertisement.

THEATRIANS.—We neglected in our last to give the notice due the young ladies and gentlemen of our Thespian Corps for their entertainment last Thursday week, the last of the season. "Ben Bolt" and a "Loan of a Lover" were reproduced on this occasion with increased interest, the amateur actors showing an ease in style and an insight into the characters represented, uncollected by some professionals. We are glad to state that the corps by this entertainment freed themselves from debt and have something in the treasury.

There are one or two colored workmen about Tarboro' that are supposed to be in the employ of the Ring, to go about to all opposition meetings and try to create a disturbance by loud talking and asking the speakers questions. They want freedom themselves but try to deny it to others of their color who happen to differ with them. They can live during the campaign upon what they get for such work, but let all honest men frown down on them.

I will sell my stock of Piques, Lawns, Muslins and Nainsooks, at cost. Call soon before they are all sold. A. Whitlock.

OK DIT.—That the Matrimonial Club of this place has begun a vigorous campaign over quite an extensive area of territory. One of its members has regular appointments in the Cape Fear region, another has just returned from the Roanoke country, two are suffering from a recent visit to the Pamlico, while "the old war horse" of the squadron has just started to canvass the metropolitan district.

ROCKY MOUNT, N. C., July 20th, 1874.

All the Granges of Edgecombe, Nash and adjoining Counties are requested to send three or more delegates to a meeting to be held at Rocky Mount on the fourth Wednesday in July for the purpose of forming a Council of the Patrons of Husbandry.

By order of a meeting of Patrons of Husbandry, held at Rocky Mount on the 18th day of June, 1874.

W. L. THOMP, Sec'y.

Other papers in this section are requested to copy.

RADICAL TOWNSHIP LEADER AND VOTER.—"Well, Ned, I is head-man in dis township. I takes de papers and go by what our leaders say, and I want you all to go and vote at dis election."

"Look here old man, did you say dat you was head-man in dis township?" "Yes." "Well look here old man, dare was a time when Mars William was head, but dat time is played out, and I don't want no nigger come telling me he is head. I is head myself now, so don't talk no foolishness to me any more, old man."

"Well, ah, well, well, ah."

"No, well ah, nothing about it. I is free sure enough, I is."

"Well, ah, how is your crop?"

LOUISIANA REMEDY.—Some time ago Pamela Grange appointed a Committee to solicit contributions for the sufferers from the southwestern flood. Mr. John L. Bridgers, Jr., the committee-man for this Township, has succeeded in making a remittance, which, when we consider the collections formerly made for like purposes, is one of which we have no cause to feel ashamed. The following is an acknowledgment from the Mayor of New Orleans:

MAYORALTY OF NEW ORLEANS, New Orleans, June 30, 1874.

John L. Bridgers, Jr., Esq., Attorney at Law, Tarboro', N. C.

My Dear Sir:—You will oblige me by returning my thanks to the kind citizens of Tarboro' for their generous contribution of Seventy-two 75-100 Dollars contained in your letter of June 20th, for sufferers by the recent floods. The sum is carried to our General Relief Fund, and will be used according to the philanthropic wishes of the donors.

I send for your information a copy of my circular since the issue of which the situation has not materially changed.

I remain yours, very respectfully,

LOUIS A. WILTZ, Mayor and Treasurer Relief Fund.

THE 4TH.—THE SPIRIT OF '76 STILL RIFE

"TARBORO' LOYAL."—We had been unjust enough in our suspicions to imagine that the glorious fourth of July, the national natal day, that 98 years ago ushered into the family of nations a government that was to play no minor part in the world's drama, could dawn upon the quiet people of our city with as much apparent abandon and unconcern as the hottest day in dog-days or the most dismal mid-winter.

We thought the sun would rise over the Methodist Church and set behind the Male Academy and pass over a lot of busy men on Main street without awakening the slightest aspiration beyond the mere of cotton, dry goods and groceries. But however wise a man may be he may sometimes be mistaken. Newton, Kepler and Aristotle made errors and so even, once in a century, does the ENQUIRER-SOUTHERNER.

The first evidence we had that the spirit of '76 was rife on our streets was the dull sound of a pop-cracker under an empty barrel, accompanied by the small yell of a small boy. We might have attributed the sound to the glee of some naughty boy over the disappointed looks of an unfortunate devotee of Bacchus as he pulled the stopper out of his empty jug, had not the continual cracking shown us that some body else was cracked besides the devotee aforesaid. This small popping and small yelling continued, with various interval, until sun-down, at which time the patriotism of the people had been worked up to such a state that a subscription of ten cents could easily have been made for a sky-rocket or powder for a baby-waker. In fact six or seven baby-wakers were exploded, to the damage of window glass and to the arousing in the nervously inclined a feeling not exactly harmonious with that of peace of mind which a baby loves to carry to his couch. But they made a big noise and the rockets amused the children, and the day ended leaving on the minds of the citizens a feeling of thankfulness that it was gone.

For the best stock of City made Ladies', Misses' and Children's Shoes, you will find at Mrs. Feldenhimer's.

THEIR HAIL STORM IN PIT.—One of the most terrible and destructive hail storms ever witnessed in this section of country, visited Bethel Township, Pitt county, on Sunday last. The storm was of thirty minutes duration, the stones averaging an egg in size, some weighing a pound and more, and razed to the ground the entire crop in a space six miles square. Mr. Jas. L. Ward, who suffered a heavy loss to his crop, amounting in the aggregate to 1500 dollars, has placed before us specimens of corn, cotton, &c., after the storm. The first presents the appearance of cane after passing through a mill, its stock being riddled with holes similar to those made by musket bullets, and the second is wholly stripped of its branches, the stem being crushed into a pulpy mass. The storm hailed with such force that a horse which unfortunately happened to be exposed on a neighbors farm was instantly killed. Mr. Ward lost some forty or fifty chickens. In some places, although the shutters of the farm houses were closed, the blinds, glasses and sash were broken into pieces. Services at Bethel Church had just been concluded when the storm arose, and it was so severe at that point that shingles were knocked off, and a quantity of ice entered the building through the roof.

The crops in this section were the finest of any year since the war, and planters who congratulated each other at the Church in the forenoon on the bright prospects for this season, returned to their homes in the afternoon to find all in a state of ruin and devastation. The damage at the lowest figures is estimated at not less than one hundred thousand dollars.

MEETING OF THE COUNTY COMMISSIONERS.—The Commissioners met on last Monday and were in session two days. But a small amount of business was transacted except the issuing of rations to the poor and the appointment of Registrars and Judges of election.

Win. Cook, colored, was allowed \$1690.00 for the rebuilding of Teat's Bridge, and John E. Boyett \$425.00 for the rebuilding of Seasons' Bridge. You will recollect that these bridges were carried away last year by the freshet, for which Win. Cook then received the small sum of \$2,623.00.

Dr. W. A. Duggan reported that he had received from Raleigh on account of the Lunatics of the county \$250.80, and paid the same over to the County Treasurer.

Below we give the names of the Registrars and Judges of election appointed by the Board for the August election: Tarboro' Township—R. S. Taylor, Registrar. Judges—Orren Williams, H. D. Teel, Benj. Norfleet, Nathan Boyd.

RADICAL FEMALE SEMINARY.—We invite the attention of our readers to the advertisement of this school in another column. Despite the panic, which paralyzed so many enterprises, this school has increased every session, the number of pupils the last session being 108. The number of boarding pupils during the past session was fifty per cent. more than that of the Spring session of 1873.

We observe that two music teachers are employed, Prof. Agthe in charge of instrumental music, while vocal music is taught by an English lady, who received her musical education under the best masters of England. The Professor of Music, by his age and experience of twenty-one years in teaching in America, is eminently adapted to sustain the high reputation of the school for excellence in music. He was for several years connected with the large Moravian School, at Bethlehem, Pennsylvania, whose President in a letter to Prof. Hohgood commends him in the highest terms as a musician, teacher and gentleman.

We observe also that Rev. A. F. Redd, who has a reputation second to that of but few teachers in North Carolina, has been re-employed.

Another of the former teachers in this School has been re-employed. She left it a year and a half ago, to prepare herself at Vassar College, the most celebrated Female School in America and perhaps in the world, for teaching, although at that time she had diplomas as graduate of one of the best schools in North Carolina.

German is taught by a native German, and those who wish to study this important language, will have unusual facilities for it.

From a personal visit to the Institution, we can bear testimony to the beauty of location, the suitable arrangement of the building, the beauty of the Paintings and Drawings of its pupils, their skill in music, the excellence of the apparatus—Chemical and Philosophical—and the outfit of eight new pianos.

Parties desiring information should send for a catalogue.

Great inducements to buyers at BELL'S. Come and supply yourselves with a nice Watch, Chain, Finger Ring, Studs, Gold Pen, Set of Jewelry, Set of Spoons, Gaster, or a good Clock, while they are going at such low prices. Anything in the Rubber Stamp, Stencil, or Seal Presses, supplied on short notice. Come see "how it is yours."

THE AMERICAN FARMER.—For July is a hand. Every branch of Farm Life is treated but special attention is given to the staple crops and to the manures, both natural and artificial suited to them. Fruit Growing in its various aspects is also a prominent topic, whilst ornamental gardening has liberal attention.

Published by Sam'l Sands & Son, No. 9 North St., Baltimore, Md., at \$1.00 a year, 5 copies \$5.00. Specimens sent free.
